

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

TRANSACTIONS

OF THE

AMERICAN PHILOSOPHICAL SOCIETY,

HELD AT PHILADELPHIA,

FOR PROMOTING USEFUL KNOWLEDGE.

VOL. V.—NEW SERIES.

PUBLISHED BY THE SOCIETY.

Philadelphia:

PRINTED BY JAMES KAY, JUN. & BROTHER, PRINTERS TO THE SOCIETY.

No. 122, CHESTNUT STREET.

1837.

CONTENTS.

Laws of the Society relating to the Transactions. - - - - -	iii
Officers of the Society for the Year 1837. - - - - -	v
List of the Members of the Society elected since the Publication of the Fourth Volume, New Series. - - - - - - - -	vii
Obituary Notice. - - - - - - - -	ix

ARTICLE I.

On the Diurnal Variation of the Horizontal Needle. By Alexander Dallas Bache, Professor of Natural Philosophy and Chemistry in the University of Pennsylvania. - - - - - - - - -	1
--	---

ARTICLE II.

Observations on the Naiades; and Descriptions of New Species of that, and other Families. By Isaac Lea. - - - - - - -	23
--	----

ARTICLE III.

On the Visceral Anatomy of the Python (Cuvier), described by Daudin as the Boa Reticulata. By J. P. Hopkinson, M. D. and J. Pancoast, M. D. - -	121
---	-----

ARTICLE IV.

On the Longitude of the Hall of the American Philosophical Society, deduced from an Occultation of Aldebaran observed by S. C. Walker January 5th 1830. -	135
--	-----

ARTICLE V.

- On the Crystals developed in Vermiculite by Heat. By Andres Del Rio, Professor of Mineralogy in the Mexican School of Mines. - - - - - 137

ARTICLE VI.

- Collections towards a Flora of the Territory of Arkansas. By Thomas Nuttall. - 139

ARTICLE VII.

- A Remarkable Arrangement of Numbers, constituting a Magic Cyclovolute. By E. Nulty, Philadelphia. - - - - - 205

ARTICLE VIII.

- Observations to determine the Magnetic Dip at Baltimore, Philadelphia, New York, West Point, Providence, Springfield and Albany. By A. D. Bache, professor of Natural Philosophy and Chemistry, and Edward H. Courtenay, Professor of Mathematics, in the University of Pennsylvania. - - - - - 209

ARTICLE IX.

- Contributions to Electricity and Magnetism. By Joseph Henry, Professor of Natural Philosophy in the College of New Jersey, Princeton, late of the Albany Academy.—No. I. Description of a Galvanic Battery for producing Electricity of different Intensities. - - - - - 217

ARTICLE X.

- Contributions to Electricity and Magnetism. By Joseph Henry, Professor of Natural Philosophy in the College of New Jersey, Princeton, late of the Albany Academy.—No. II. On the Influence of a Spiral Conductor in increasing the Intensity of Electricity from a Galvanic Arrangement of a Single Pair, &c. - - - - - 223

ARTICLE XI.

Collection of Observations on the Solar Eclipse of November 30th, 1834, made at Philadelphia, Haverford, West-Hills, Baltimore, the University of Virginia, Norfolk, Cincinnati and Nashville. - - - - -	233
--	-----

ARTICLE XII.

De Lingua Othomitorum Dissertatio ; Auctore Emmanuele Naxera, Mexicano, Academiæ Literariæ Zacatecarum Socio. - - - - -	249
---	-----

ARTICLE XIII.

Practical Rule for Calculating, from the Elements in the Nautical Almanac, the Circumstances of an Eclipse of the Sun, for a Particular Place. By John Gummere, Teacher of Natural Philosophy and Mathematics in the Friends' School at Haverford, Pennsylvania. - - - - -	297
--	-----

ARTICLE XIV.

Contributions to the Geology of the Tertiary Formations of Virginia. By William B. Rogers, Professor of Natural Philosophy in the University of Virginia, and Henry D. Rogers, Professor of Geology in the University of Pennsylvania. -	319
--	-----

ARTICLE XV.

On the Difference of Longitude of several places in the United States, as determined by Observations of the Solar Eclipse of November 30th, 1834. By Edward H. Courtenay, Professor of Mathematics in the University of Pennsylvania. - -	343
---	-----

ARTICLE XVI.

Observations on Sulphurous Ether, and Sulphate of Etherine (the true Sulphurous Ether). By R. Hare, M.D., Professor of Chemistry in the University of Pennsylvania. - - - - -	347
---	-----

ARTICLE XVII.

- Of the Reaction of the Essential Oils with Sulphurous Acid, as evolved in Union with Ether in the Process of Etherification, or otherwise. By R. Hare, M.D., &c., &c. - - - - - 355

ARTICLE XVIII.

- Of Sassarubrin, a Resin evolved by Sulphuric Acid from Oil of Sassafras, which is remarkable for its efficacy in Reddening that Acid in its concentrated State. By R. Hare, M.D., &c., &c., &c. - - - - - 360

ARTICLE XIX.

- Process for Nitric Ether, or Sweet Spirits of Nitre, by means of an approved Apparatus. By R. Hare, M.D., &c., &c., &c. - - - - - 363

ARTICLE XX.

- Description of an Electrical Machine, with a Plate four feet in Diameter, so constructed as to be above the Operator: also of a Battery Discharger employed therewith: and some Observations on the Causes of the Diversity in the Length of the Sparks erroneously distinguished by the terms Positive and Negative. By R. Hare, M.D., &c., &c., &c. - - - - - 365

ARTICLE XXI.

- On the Causes of the Tornado, or Water Spout. By R. Hare, M.D., &c., &c., &c. 375

ARTICLE XXII.

- Description of an Air Pump of a new Construction, which acts either as an Air Pump, or a Condenser, or as both; enabling the operator to exhaust, to condense, to transfer a Gas from one cavity to another, or to pass it through a Liquid. By R. Hare, M.D., &c., &c., &c. - - - - - 385

CONTENTS.

XV

ARTICLE XXIII.

Of an Improved Barometer Gage Eudiometer. By R. Hare, M.D., &c., &c., &c. - 389

ARTICLE XXIV.

On the Cause of the Collapse of a Reservoir while apparently subjected within to great Pressure from a Head of Water. By R. Hare, M.D., &c., &c., &c. - 395

ARTICLE XXV.

Sundry Improvements in Apparatus, or Manipulation. By R. Hare, M.D., &c., &c., &c. - - - - - 399

ARTICLE XXVI.

Notes and Diagrams, illustrative of the Directions of the Forces acting at and near the surface of the Earth, in different parts of the Brunswick Tornado of June 19th 1835. By A. D. Bache, Professor of Natural Philosophy and Chemistry in the University of Pennsylvania; one of the Secretaries of the American Philosophical Society. - 407

ARTICLE XXVII.

Deductions from Observations made, and Facts collected on the Path of the Brunswick Spout of June 19th 1835. By James P. Espy, Member of the American Philosophical Society. - - - - - 421

ARTICLE XXVIII.

On the Relative Horizontal Intensities of Terrestrial Magnetism at several Places in the United States, with the Investigation of Corrections for Temperature, and Comparisons of the Methods of Oscillation in Full and Rarefied Air. By A. D. Bache, Professor of Natural Philosophy and Chemistry, and Edward H. Courtenay, Professor of Mathematics, in the University of Pennsylvania. - - - 427
